Christian Medical College Vellore

Person-to-Person

PtP you bridge the gap

March 2024

Madhu (name changed) is a 37-year-old mother from Vellore. She and her husband are daily wage laborers of the 100-day work scheme. Diagnosed with ventricular tachycardia (a heart disease), Madhu was admitted in the ICU under the care of the Cardiology Department, where she received life-saving treatment. Her treatment cost was covered by PTP and other charity funds of CMC. **This report gives details about the 3,265 patients supported by PTP fund in the last 12 months.**

Thank you for your thoughtful giving!
