

Division of Surgery organises Trauma Symposium

A Trauma Symposium on the topic 'Roadblocks and Challenges in Setting up a Level 1 Trauma Centre in India' was organised by the Division of Surgery, on the 9th of March, 2019. Eminent speakers from the University of Michigan, AIIMS, Amrita Institute and CMC took sessions on related topics.

The CMC Trauma Team hopes to build on the lessons learned, as they are getting ready to open a trauma centre, the first of its kind in the State, in the near future.

[Read about CMC's new campus at Kannigapuram, which will be home to the trauma centre, and how you can support us in this endeavour.](#)
