NATIONAL CONFERENCE ON SIMULATION BASED LEARNING (SIMEDUCON)

1ST TO 3RD MARCH

**Theme:** “Simulation-Shifting the paradigm of Education & Safety in Healthcare”.

**PRE –CONFERENCE WORKSHOP:**

1. **Training of Trainers (TOT) in Simulation based learning (1st & 2nd March)**
   - Do you wish to become a Simulation trainer?
     
     An Excellent opportunity for all Medical, Nursing and Allied health faculty/Instructors who wish to become trainer in Simulation based teaching.

2. **Basic Skills Workshop (2nd March)**
   - Hands on training in CPR, Defibrillation, Airway, Vascular access, Birthing/PPH, Basic Trauma Care, Surgical procedure, Neonatal Resuscitation.
   - Limited seats available for Medical, Nursing students, and Interns (Max 40 participants only)

3. **Advanced Skills Workshop (2nd March)**
   - Limited seats available for Post Graduates trainees, Nurses and Doctors (Max 30 Participants only)

**HIGHLIGHTS OF THE CONFERENCE (3RD March)**

- Interesting topics on Simulation as an Educational and Quality tool in healthcare-Didactic Lectures, Debates and Panel discussion.
- A great opportunity to meet and interact with International and National simulation experts.
- Attractive Price and awards for poster/Oral presentations – Call for Abstracts on all Simulation, Skills training, Medical Education related works and research activities.

For Registration, Abstracts submission and enquiry Please contact – Dr. J.Ebor Jacob, Organizing Secretary, SIMEDUCON, PICU, CMC, Vellore.

Email: picu@cmcvellore.ac.in, simeducon2018@gmail.com; Contact No: 0416-2283666, Mobile no: 870333409.
SIMEDUCON 2018
Third National Conference of PediSTARS on Simulation Based Learning

3rd March, 2018

Theme: “Simulation - Shifting the paradigm of Education & Safety in Healthcare”

Training of Trainers (TOT) in Simulation Based Learning
1st - 2nd March, 2018

Essential Skills Workshop for Medical students, Interns, PG trainees, Nurses & Doctors
2nd March, 2018

1st - 3rd March, 2018

Celebrating 100 years of Medical education
Christian Medical College
Vellore 632 002, Tamil Nadu, India
**Invitation**

On behalf of Christian Medical College, Vellore in association with PediSTARS, India, we are very pleased to invite you to the 3rd National Conference on Simulation Based Learning to be held from 1st to 3rd March, 2018 in the New Examination Hall at CMC, Vellore, Bagayam Campus. CMC, Vellore which is well known for its pioneering work in healthcare is pleased to organise SIMEDUCON in its centenary year of Medical Education.

Simulation based education focuses on teaching healthcare professionals in a risk-free learning environment with realistic experiences. Simulation training is a powerful educational tool to help to facilitate learning and it has transformed the way we practice to improve patient outcomes. As one of the main proponents of simulation based education in India, PediSTARS India is affiliated to International bodies, Society of Simulation in healthcare (SSIH) and IPSS (International Pediatric Simulation Society). PediSTARS India has passionately worked with national and international experts in successfully conducting various workshops across India such as STEP, SUCCESS and Neo-Sim, National Simulation Conference (SIMULUS) and TOTs in Simulation over the last 4 years in India.

This meeting will feature distinguished international and national speakers representing leaders in medical simulation.

We hope this conference and the workshops will inspire you with an unmatched networking and knowledge exchange in didactic sessions, panel discussions, debates and through simulation based learning.

Looking forward to your participation

---

**Who can attend the Conference?**

- Healthcare professionals who are interested in Simulation Based Learning
- Emergency care doctors, Intensivist, Paed. Intensivists, Anesthetists, Pediatricians, Neonatologists, Physicians, Nurses, Paramedical technicians, Medical & Nursing students, Interns, PG trainees & Faculty from all disciplines.

---

**Highlights:**

- Training of Trainers (TOT) in Simulation Based Learning
- Essential Skills Workshop (Medical/Nursing UG, Interns & Postgraduate Trainees from all disciplines)
- Excellent opportunity to meet and interact with International and National Simulation experts
- Poster/Oral Presentations on Simulation in Healthcare (Best oral/Poster Awards)
Training of Trainers (TOT) in Simulation Based Learning
(1st & 2nd March, 2018)

The Program will be conducted by international and national simulation experts. By the end of the course, participants can learn to be a facilitator of simulation based education in their day to day practice as well as in their institutions and contribute towards enhanced learning in a risk free environment and hence quality care to patients. All participants will be mentored by senior faculty and will have the opportunity to maintain skills as facilitators or trainers by becoming faculty for the workshops organised by PediSTARS India locally and nationally.

**Learning Objectives:**
- Principles of adult-learning
- Application of adult learning principles in simulated environment
- Technical and non-technical know-how of designing simulation scenarios
- Approach to setting learning objectives
- Conducting a simulation scenario-nuts and bolts, preparations and pitfalls
- Debriefing - the essence of simulation based education

**Target participants**
- Healthcare professionals who are interested in Simulation Based Learning and keen to become a Trainer
- Pediatricians, Neonatologists, Physicians, Emergency care doctors, Intensivist, Ped. Intensivists, Anesthetists, Nurses, Paramedical technicians, Medical and Nursing Faculty
- Encouraged to come as a team from same institution (Doctor plus nurse/technician)

**TOT Highlights**
- Understand the role of simulation in education and quality improvement.
- Understand and practice the principles of adult learning.
- Understand and practice the principles of Crisis Resource Management and multi disciplinary team training.
- Review and demonstrate effective debriefing methodology
- Understand basic components for building a simulation-based curriculum.
Learning Objectives:
- Principles of simulation based learning
- Essential Skills training using task trainers / in simulated environment
- Debrief about the skills acquired using simulation

1. Basic Workshop
Skill Stations using task trainers (For Medical /Nursing (UG) students & Interns)
- CPR with feedback
- AED/Defibrillation
- Airway management
- Vascular access (IV arm, Intraosseus)
- Birthing/PPH
- Basic Trauma Care
- Surgical procedures (Catheterization / FNAC)
- Neonatal Resuscitation & more...

2. Advanced Workshop
Simulation based Skill stations (Doctors, Nurses and PG trainees from all disciplines)
- Airway/Intubation
- Difficult airway, Cricothyrotomy
- Vascular Access (Intraosseus, Central Venous line)
- Intercostal Chest Drainage
- Emergency Ultra sonogram (Vascular access, e-FAST)
- ACLS - Arrhythmia management & more...
Conference (3rd March, 2018)

Scientific Content of the Conference

Talk: Current gaps in medical education – Can simulation fill the gap?
Talk: Faculty development – A roadmap for an academic career in simulation
Panel Discussion: Learning from other industries: 360° view of simulation
Keynote Lecture: Simulation – A Disruptive innovation in medical education
Debate: High technology is better than Low technology simulation
Talk: Role of Teachers in Simulation Based Learning – Assessment of Students

Putting it together: Challenges of introducing simulation in medical education

Keynote lecture: Simulation in healthcare – Redefining patient safety
Panel Discussion: Simulation in healthcare, a Smart Investment?
Debate: Debriefing an acute Event: Hot debriefing is the best
Panel Discussion: Simulation in India - Building the momentum

Faculty

Dr. Vinay Nadkarni
Endowed Chair, Professor, Department of Anesthesia and Critical Care Medicine
Medical Director, CHOP Center for Simulation, Advanced Education, and Innovation Associate Director, University of Pennsylvania Center for Resuscitation Science, USA

Dr. Mike Shepherd
Director of Starship Child Health
Paediatric Emergency Specialist, Starship Child Health, Auckland, New Zealand.

Dr. David Grant
Associate Dean, Simulation, Health Education England, South West Chair, Bristol Medical SIM Centre, UK President, SESAM (European SIM Society)
Dr. T. Dileep Kumar
President, Indian Nursing Council

Dr. Ebor Jacob
Professor & Head, PICU
CMC, Vellore

Dr. Kishore Pichamuthu
Professor, Medical ICU
CMC, Vellore

Dr. Binila Chacko
Professor, Medical ICU
CMC, Vellore

Dr. Ekta Rai
Professor, Anaesthesia,
CMC, Vellore

Mr. Pavan Sridharan
Co-founder & Director
Meduplay systems, IISc Alumnus

and many more Medical & Nursing faculty.

Pre-conference "Essential skills workshop"

Faculty from CMC

Dr. Inian Samarasam,
Prof. & Head, Surgery-III

Dr. Kala Ebenezer
Professor, PICU

Dr. Leenath,
Asst. Prof. Pediatrics

Dr. Vasanth,
Asso. Prof. Surgery

Dr. Shoma. V. Rao,
Asso. Prof. SICU

Dr. K.P.P. Abhilash,
Assoc. Prof. & Incharge, Accident & Emergency

Dr. Pritish Korula,
Asso. Prof. SICU

Dr. Thomas Sudarshan,
Asso. Prof. MICU

Dr. Lovely Thomas,
Asst. Prof. MICU

Dr. Abhinaya,
Asst. Prof. Surgery

Dr. Rajasekar,
Asst. Prof. SICU

Dr. Atul,
Asst. Prof. MICU

Dr. Uday,
Asst. Prof., SICU

Dr. Pragathesh P,
Asst. Prof., PICU

Dr. Suddasatta Gosh,
Asst. Prof., PICU

Dr. Muniya Thockhom,
Asst. Prof., PICU

Dr. Vandana Pande,
Asst. Prof. Pediatric Emergency

Dr. Anila Chacko,
Asso. Prof. Pediatrics

Dr. Roshini,
Asst. Prof. Pediatrics

Dr. Reeta Vijayaselvi,
Asso. Prof. OG

Dr. Emily Divya,
Asst. Prof. OG

Dr. G. Priya,
Asst. Prof. Accident & Emergency

Dr. Rishal Rahman,
Asst. Prof. Accident & Emergency

Dr. Suresh Kumar,
Tutor, Accident Emergency

Dr. Manish Kumar,
Asso. Prof. Neonatology

Dr. Benjamin J Ross,
Asst. Prof. Neonatology

Dr. Anu Poonen,
Asst. Prof. Pediatrics

Dr. Jesinth Mohan,
Asst. Prof. Pediatrics

Dr. Magdalene,
Asst. Prof. Pediatrics

& faculty from College of Nursing (CON)

## Abstracts

Call for Abstracts

- Call for abstracts from Medical / Nursing Students & faculty, Interns, PGs, Nurses & Doctors.
- 1. All simulation, skills training related works and research activities.
- 2. All Medical Education related works.

Abstract submissions (before 20.02.2018) to picu@cmcvellore.ac.in and pedistars@gmail.com

Attractive prizes and PediSTAR awards for the best poster & oral presentations.

SIMEDUCON 2018
About Christian Medical College

Christian Medical College and Hospital, Vellore (CMC Vellore) is an educational and research institute and a network of primary secondary and territory care hospitals located in and around Vellore, Tamil Nadu, India. It is one of the most prominent and respected medical destinations in India and Internationally. Christian Medical College Vellore was founded in 1900 by Dr. Ida S Scudder in the face of great need to provide healthcare to women and children. Over the years, this mandate has expanded, and today, CMC is lauded for its excellent clinical service, relevant research work, high quality medical education and innovative outreach programme.

Interesting places in and around Vellore

The ancient fort at Vellore has played an important role in local history. According to tradition, it was built in the latter part of the 13th Century to lift a curse on a temple dedicated to Siva. When the fort was completed, the surrounding woodland was cleared and the town of Vellore was established.

With the overthrow of the powerful Vijayanagar Kingdom, Vellore Fort passed into the hands of the Bhamini Sultans. At this time, South India became a turbulent battleground between rival kingdoms. After a long siege, the Maharatta ousted the Bhaminis from Vellore Fort. The Mughals, wishing to quell the disturbances on the fringes of their empire, sent an army from the north which was strongly resisted by the Maharattas. During this period, Vellore Fort passed from the hands of the Mughals to the Maharattas and back again.

By the mid 18th Century, it was clear that the British would replace the Mughals as the ruling power in India. In exchange for protection, the Nawab of Arcot handed over Vellore Fort to the British.

In 1780, Vellore Fort was besieged by Hyder Ali as part of his campaign to overthrow the British. His son, Tippu Sultan was killed in the battle in 1799 while attempting to carry out his father's plan. The remaining members of his family were held prisoners in Vellore Fort. In 1806, they encouraged the Indian Sepoys garrisoned at the Fort to mutiny against their British commanders but the revolt was crushed with the help of a garrison from Arcot. The fort then remained under British control until Independence 1947.
HOW TO GET HERE:

Nearest airport is Chennai International airport which is well connected to Vellore by Road (2 1/2 hours and Railway (2 hours)

Organising Team

Patrons
Dr. J.V. Peter,
Director, CMC
Dr. Anna B. Pulimood,
Principal, CMC

Organising Chair
Dr. Anna Simon,
Head, Division of Child Health
