 on

"Recent Trends and
 Advancements in
 Genito Urological Nursing"

ORGANIZED BY:
 DEPARTMENTS OF MEDICAL SURGICAL
 NURSING SPECIALTY I
 &
 CNE & RESEARCH

Date: March 27th, 2019

Venue: CNE Lecture Hall

CMC, Vellore

Dear Friends,

It is our privilege and pleasure to invite you to the workshop on “Recent trends and advancements in Genito Urological Nursing” at College of Nursing, Christian Medical College, Vellore scheduled on 27th March, 2019.

Health care services in Genito Urological conditions in CMC has the history way back from 1945. This department well remembers the pioneers of medical expertise and the senior eminent nursing leaders from in and around our country who worked in this department.

Genito Urological nurses serve as a back bone of the Genito Urological team. They play a vital role in the successful treatment and rehabilitation of patients who come with Genito Urological diseases and disorders. The success of a surgery not only depends on the surgical procedure but the preparation and care provided before, during, and after each surgery. The advances in technology, preventing the emerging complications, and involving the various strategies to reduce hospitalization of patients in order to enhance early recovery poses challenges to this professional team. Genito Urological Nursing is a highly super specialized area and there are ample opportunities available for Nurses who have the right qualification and experience to be competent in providing comprehensive,

quality care to these patients. For this demand, the nurses need to be abreast of the changing trends in Genito Urological Nursing.

They need to refresh their knowledge and skills related to Genito Urological surgical and medical interventions with all ethical concerns.

Staff Nurses, Charge Nurses, and Nurse Managers involved in caring for patients with Urological conditions as well as Nurses interested to update themselves may attend this workshop.

Objectives:

At the end of the workshop the participants will be able to :

1. Update their knowledge regarding the recent trends and advancements in Genito-Urological nursing
2. Enhance their skills in performing nursing procedures related to Genito Urinary system
3. Demonstrate specific nursing skills in caring for patients with Genito Urological carcinoma

Registration fee: Rs. 500/-

***Credit hours will be obtained from the Tamilnadu Nurses and Midwives Council, Chennai**
