6th Certificate Course in “Hospital Infection Prevention and Control & Antimicrobial Stewardship HICC, CMC, Vellore

Introduction:

The Hospital Infection Control Committee Christian Medical College, Vellore would like to provide training to update the knowledge and skills of doctors from medical colleges, hospitals and mission hospitals across India through a FIVE day Certificate course in “Infection Prevention and Control”.

Aims:

The hospital infection prevention and control course will encompass a core curriculum which imparts firm grounding on the knowledge and skills required to prevent and control healthcare associated infections and promote judicious use of antibiotics.

It will also enable participants to function effectively in their respective areas and to develop expertise in the above aspects.

Objectives:

- Explain the principles of infection control programme.
- Explain the principles of antimicrobial stewardship.
- Review epidemiology and risk factors for healthcare associated infections.

Eligibility criteria:

- Post MD:
 - Microbiology / Pharmacology / any clinical specialty
 - Faculty / Consultant / Clinician actively working in the field of infection control or antimicrobial stewardship in the hospital
- Maximum number of participants – 35

•The application should be approved and supported by the Head of the department or Institutional Head / Dean / Director.

•Registration will be on a first come, first served basis. Preference will be given to faculty members actively involved in infection control at their hospital.

•Accommodation will be provided, only for first 20 participants on payment basis and on sharing basis.

Registration:

Refreshment & Lunch will be provided. Registration fee Rs.17,500/- (Including 18% GST)

Complete the registration form and send along with the crossed DD for Rs.17,500/- only drawn in favor of “ **CMC Vellore Association**” Payable at Vellore to the following address.
